OF THE TOWN OF

EASTON

FOR

1985

The Spirit of Southeastern Massachusetts . . . 1685 - 1985

BRISTOL COUNTY

In 1680 the General Court in Plymouth voted to take over all the Mount Hope Indian lands; and on June 2, 1685 the Court made these lands, including "Bristol, Taunton, Rehoboth, Dartmouth, Swansey, Little Compton, Freetown, Sowammit, Pocasset, Punkatest and all such Places, Towns and Villages as are or may be settled on said lands . . . . a County, Bristol the County town and said County shall be called the County of Bristol."

In 1746 the boundary between Massachusetts and Rhode Island was moved easterly from Narragansett Bay, and Taunton became the Shiretown of Bristol County.

REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen respectfully submits an annual report to the citizens of Easton.

The Board reorganized after the re-election of Richard B. Lane and James D. Mullen, Jr., in April. John Kent was elected Chairman and Mr. Lane elected Clerk.

The Board scheduled regular meetings for each Monday at 7 P.M. Members also attended many meetings and hearings of the other town boards or commissions in order to keep apprised of the activities and the concerns of the townspeople.

September's Hurricane Gloria emphasized the commitment and the dedication of the Town's employees in meeting an emergency, but it also indicated a need for an emergency plan to include the public utilities as they responded to such emergencies.

The Board took an active role in the evaluation of the response of the utilities and in the public hearings chaired by the Department of Public Utilities.

The growth of the town and the impact on our environment is constantly reviewed by the Selectmen.

The Board appreciates the extra effort of the Town Administrator, town employees, Representative William Vernon and Senator John F. Parker. We also appreciate the service of the various commissions and committees. Their endeavors have enhanced the quality of life in Easton. We encourage you to read their reports and evaluate their recommendations.

Respectfully,

John J. Kent, Chairman
Richard B. Lane, Clerk
Leo R. Harlow
William E. Morgan
James D. Mullen, Jr.
BOARD OF SELECTMEN

REPORT OF THE TOWN ADMINISTRATOR

I am pleased to submit my third annual report as Easton's Town Administrator.

This Office continued to discharge its duties in accordance with the Town By-Laws, Town Charter and by direction of the Board of Selectmen. Primary duties are in the areas of Town finances, Town operations and future planning.

Easton's finances continues to be an area where a great deal of time and effort is concentrated. I am required by the Town charter to present my recommendations to Town Meeting, along with proper and complete background materials and fiscal projections. Paramount is the need to present a balanced and well rounded budget, taking into account the needs of all municipal departments. This requires sometime difficult decisions that must be made if we are to adhere to the provisions of the tax limitation amendment.

My fiscal 1987 budget contains one new full-time position and deletes one full-time position for no net increase. I have for budgetary reasons recommended against the increase in the number of police and fire personnel as requested by the Chiefs of the respective departments. I took this action, not because of lack of need, but because of my responsibilities to present a balanced budget reflective of the needs of all departments.

The fiscal outlook of the Town continues to be of a concern, particularly in the uncontrollable areas of spending. The Town continues to expend great sums of money for items in the areas of insurance, pensions and debt service. Increases in these fixed areas decreases the amounts available for direct service delivery to the Townspeople.

In the area of Town operations, I continue to monitor activities of all departments on a daily basis to insure that services are provided fairly equitably and efficiently. I am blessed by responsible Department and Division Heads that share my philosophy of service to the community, and with their assistance we continue to fine tune our operations.

Finally, in area of future projects, I see 1986 to be a very busy year for the Town as a whole. In addition to the yearly budget activities of this office, I will continue to work on long term projects such as the computerization of Town operations, the creation of a new Collector/Treasurer position, the approval of the expansion of the landfill, Main Street reconstruction, road and drainage improvement projects, the opening of new Fire Station No. 3, the extension of municipal water into an area of South Easton, and the planning of a new Police/Fire Building at a yet undetermined location.

In closing, I wish to thank the Board of Selectmen for their continued support and assistance. I would also like to thank all department personnel and division heads for their assistance, along with the membership of the various committees, boards and commissions. I particularly thank Belle Paulino for her day-to-day assistance.

Respectfully submitted,

Daniel J. Morgado
TOWN ADMINISTRATOR

REPORT OF THE SCHOOL COMMITTEE

The Easton School Committee submits the following report for 1985.

Following the re-election of Constance Pozzo, an organizational meeting was held in April with the Committee consisting of Donald Anderson, William Gloekler, Richard Hall, Robert Nisenbaum, and Constance Pozzo. Mr. Gloekler was elected Chairman and Mr. Anderson was elected Vice Chairman.

Curriculum review and innovation was a major focus this past year in a continuing effort for improvement in our educational program. We compliment the teaching staff, the administration and the Curriculum Coordinating Council for their accomplishments. This standardization is a great aid in assisting us in validating curriculum and meeting the demands of the new state education reform law, Chapter 188. We feel that Easton will be in the forefront of education reform as the curriculum is implemented over the next few years.

Student enrollment has not increased but has started to level off. There may be surges from time to time. However, this pattern will exist at least for the next five years. An area of concern is the high student—teacher ratio in some of our classes and the funding of our teachers' urgent needs in equipment, textbooks and supplies.

Due to the fiscal constraints faced by the Town under Proposition 2½, the School Committee was forced to reduce their originally approved budget by $466,000. The required reductions, including a modification of pupil busing, were made only after lengthy deliberation and with a concerted effort to minimize any adverse impact on our educational process. Although pupil transportation was restored at the Special Town Meeting in September, the impact from other budget reduction areas is still being felt.

We lost some people to retirement: George Costa, James Doherty, Christopher England, Francis Garcea, Barbara Goldstein, Beverly Hanna, John Kuzmack, Keith Kuzmin, Gerard Linehan, James Starr, Doris Walsh, and Joan White. These people have given a great deal of their lives to Easton Public Schools. We wish them long and happy retirements.

Our School Committee was pleased to receive the award from the United States Department of Education in recognition of Oliver Ames High School as one of the two outstanding high schools in the Commonwealth of Massachusetts. A flag and plaque were presented by President Reagan and United States Secretary of Education, William Bennett, in Washington, D.C. on October 1. Also of significance, "Doc" Harrison, Chairman of the Mathematics Department at Oliver Ames High School, was honored as one of the nation's outstanding mathematics teachers.

This is just a highlight of some of the activities in which the School Committee has been involved. We have a commitment to continually improve the quality of education for the students in the Town of Easton. We are fortunate

to have a highly competent staff that is resourceful and displays good initiative in helping us realize this goal. We applaud their efforts.

The cooperation between the various town departments enables us to perform our responsibilities and duties in a positive atmosphere. We have enjoyed representing you and look forward to your continued support and thank all of you for your input throughout the year.

Respectfully submitted,

William J. Gloekler, Chairman
Donald E. Anderson, Vice Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Easton School Committee:

As Superintendent of Schools I hereby submit my fifth report and the one hundredth in a series since the Town authorized a superintendent of schools. This report reflects some of the accomplishments for the 1985 school year and is a partial summary of the reports of the administrators of the system.

School Enrollments

As predicted, 1985 is starting to produce some stability. Even with the continued building, the school population is leveling off. Our largest enrollments at the present time are appearing at the secondary level, particularly at Oliver Ames High School. We will continue to monitor the projections for the next five to ten years.

Curriculum

The Curriculum Coordinating Council, under the leadership of Andrew Miller, Jr., Assistant Superintendent of Schools, was very active during this year. They presented to the School Committee revisions in all the major curriculum areas, as well as the elementary English curriculum for Grades K–6. This English writing team was under the leadership of Sarah Gallahue, Principal at Moreau Hall School.

The new mathematics program, utilizing the Saxon materials, has shown very positive results so far and we foresee this trend continuing.

Special Needs

Under the leadership of William Simmons, Director of Special Services, this program continues to monitor and service approximately 500 students in the system in need of special programs. The CORE meetings for review of evaluations monitor the progress of individual students within these programs. So much positive attention has made the program attractive for new residents, and as a result there has been an increase in outside of district placements and a need for more varied programs within our own school system.

Elementary

The Holt reading program is beginning to show the desired results, particularly in our achievement scores. Our teachers have gone through a period of retraining to become acquainted with this new reading program. A student in the town of Easton now can go from building to building and be placed in the same level no matter what classroom he or she attends.

Officer Friendly, a program administered by Dwayne Farrell of the Easton Police Department, has proven to be very successful in the primary grades. It has brought the Police Department and the School Department closer together and the students are learning safety, dangers, laws, and citizenship.

The resources at Sheep Pasture have been utilized throughout the school year. Students have learned more about wildlife, gardening, nutrition, and those essential things that make up our environment. We feel that the Sheep Pasture program sponsored by the Natural Resources Trust helps make our elementary school program outstanding.

We have enjoyed a positive relationship at the elementary level with Stonehill College and look forward to successful programs as students learn more about living and learning in the twenty-first century.

Kudos to those teachers and students who have put on special programs throughout the year. The parents and friends who attended them were pleased with the presentations.

The accelerated program in grade six, a new program at the Middle School taught by Leoncadia Eldredge, Rachel Hardin, and Dorothy Sundell, is off to a great start. It has been a lot of extra work for the staff but so far the results have supported the decision.

Secondary

This is the first year we have hired some new teachers as we had a great many retirements. We wish those teachers who retired and left the system the best of everything. Those who have replaced them have brought about a new definition in creativity and enthusiasm and have been a welcome addition to our staff.

Easton Junior High School

The basic skills tests administered again in 1985 indicated some positive results, and those few students who needed remediation have since been retested and successfully passed the basic skills test.

The foreign language department instituted a change in the seventh and eighth grade, teaching the first year of language over a two year period. We also eliminated a great many study halls by requiring those students who did not take a foreign language to continue with reading in the seventh grade.

The math computer labs, which were successful, have been expanded to include all math students so that all math students receive at least six periods of math a week. The special subject areas of homemaking, art, crafts, and writing labs are being required on a half-year basis instead of one marking period only.

Under the leadership of Susan Warren, the SADD (Students Against Driving Drunk) chapter was formed in the Junior High School, as well as a peer-to-peer group to discuss problems of this particular age.

Oliver Ames High School

The outstanding achievement this past year was that Oliver Ames High School was selected as one of two outstanding public high schools in the Commonwealth of Massachusetts by the United States Department of Education.

The Excellence in Education program is a competitive one and those successful schools received a flag and plaque in recognition in a White House ceremony with President Ronald Reagan and Secretary of Education William Bennett. It was a great day for Easton. It was a great tribute to the administration, the staff, the students and parents at Oliver Ames High School.

William Sullivan was appointed English department chairman and he has continued the fine academic tradition set by Francis Garcea. The English department has been closely monitoring writing labs, and the labs were one of the programs recognized by the Massachusetts Association of Secondary Principals as an exemplary program.

The foreign language program has three exchange trips presently in progress. Venezuelan students and their teachers visited Oliver Ames High School and OA students went to Venezuela. Trips are planned for French students to go to France and Latin students to go to Rome. This is at no expense to the Town of Easton as each individual pays his or her own way or groups raise their own money to attend.

Oliver Ames High School students continue to be involved in and receive honors in a wide variety of programs. Again we have had students win Gold Keys and Honorable Mention in the Boston Globe Art Show. The band, orchestra, and show choir have been outstanding in competition efforts, as well as presentations to the residents of the Town of Easton. Industrial Arts students garnered six places in the top ten of the state drafting contest. OA Science Fair participants placed in First, Second, Third, and Honorable Mention categories in the State Science Fair, and FBLA (Future Business Leaders of America) members are now President, Vice President, Treasurer and Reporter of the state FBLA. Oliver Ames High School athletic teams had an outstanding year with many league championships and tournament competitions.

The increased academic requirements which have been required of our students have resulted in increased math and verbal SAT scores during the last three years.

Parent Advisory Councils

Parent advisory councils have contributed a great deal to enrichment activities and have supported programs in the various schools that have been in need. Dedicated parents and volunteers have made many enrichment activities available. Their support and their energies have been greatly appreciated.

Closing Comments

This one hundredth report does not reflect the progress made in education over the 100 years in the Town of Easton. It is a capsule only for the year 1985. Easton public education is an excellent program. It cannot be taken for granted. It needs continual support. We are fortunate in having a well qualified, energetic staff. Their successes speak for themselves as we look around at the results of successful students as they leave 12 years of education in Easton Public Schools. They need support. We applaud them.

The Easton School Committee is a dedicated, responsible group of individuals elected by the residents to nurture the quality of education in the Town of Easton. They have been conscientious in maintaining this fine quality. They, too, are applauded for their efforts. We thank all the town departments for their cooperative spirit, and I want to thank the residents of Easton for their support.

Respectfully submitted,

George P. Lane, Ed.D.

REPORT OF THE BOARD OF ASSESSORS

To the Citizens of Easton:

The following annual report for 1985 is submitted herewith:

The Town of Easton is currently undergoing a revaluation program for fiscal year 1986 which is being done under contract with the revaluation firm of Municipal Management Consultants, dba McGee & Magane of Tewksbury, Mass.

The Department of Revenue is expected to give initial certification to all classes of property during February 1986. Once initial certification is given, taxpayers will be notified in the newspapers and on cable TV that the proposed values are available for review.

Once the review period is concluded and the Board of Assessors is satisfied with all proposed values, the Department of Revenue will be asked to give final certification. Once this is accomplished, the process for setting a fiscal year 1986 tax rate will begin. This process includes the public hearing over classification in which the Selectmen choose either a single tax rate for all classes of property or more than one, choosing different tax rates depending on the use of the property.

Respectfully submitted,

Charles C. Willis, Chairman
Frederick J. Meade, Clerk
John A. Keach, Jr.
BOARD OF ASSESSORS

REPORT OF THE FINANCE COMMITTEE

The Finance Committee received the Town Budget for fiscal 1987 in early January. The expense side of the budget is well defined and is being closely scrutinized by the Committee. Personnel cost, which is by far the largest item in the budget, will not be defined accurately until negotiation is complete on the five labor contracts covering Town employees.

The early deadline for material to be included in the Town Report precludes submission of a complete report at this time.

A supplemental report containing the recommendations of the Finance Committee on appropriations to be acted on by the Town Meeting will be distributed before the date of the meeting.

REPORT OF THE POLICE DEPARTMENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1985.

We have experienced a significant increase in the number of Complaints and Investigations over the past year. This is a reflection of the community's growth and is starting to put a strain on the ability of the Department to meet its citizen's demands. Therefore, I have requested an increase in personnel and have again asked that efforts be made to find a suitable location for a new station.

The statistics for the past year show a marked decrease in Breaking and Entering and we have been successful in bringing our clearance rate up to twenty-nine percent. It is our hope that we can continue to improve on these figures.

I would like to express my appreciation to all members of the Department and to all Town personnel in making this a pleasant year.

I would also like to thank all the concerned citizens of Easton for their cooperation and active support of our Neighborhood and Crime Watch Programs.

Respectfully submitted,

Walter Healey, Chief

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

I hereby submit the report of the Easton Fire Department for the year 1985.

The Department has responded to 2,895 emergency calls, 895 of which were Ambulance runs. The emergency runs have greatly increased due to the growth in population and the tremendous amount of building within the town.

Since July 8, 1985 the Department has had a full time inspector to enforce State and Local Fire Prevention Rules and Regulations which are constantly changing to protect the safety of the public. Installation of Smoke Detectors have greatly reduced the loss of property and lives.

A video recorder was added to the Department for the training program which is necessary for all fire personnel to increase their knowledge with the changing times and safety protection.

A new Ambulance was purchased on May 1, 1985 to replace the 1976 Ambulance which is still on the waiting list. I am requesting a new Ambulance to replace the 1980 this year.

Ladder No. 1 Must be refurbished this year for extended life or a total replacement will be necessary.

Station No. 3 Is still under construction and expected to be completed by late Spring. I will be requesting (4) four men as the beginning of a training program for the manning of Station No. 3.

Fire Prevention Week was observed at all the Elementary Schools by the firefighters' donating their time. A job well done.

I also would like to mention that many of the firefighters have given free time to speak with the citizens of Easton on fire safety and protection which is greatly appreciated.

I want to take this opportunity to "Thank" each and every one of the firefighters for their time in the maintenance and repair of the apparatus and the up-keep of the Stations.

The Easton Fire Department wishes to express appreciation to the Town officials, all of the Boards and to the citizens of Easton for their support and cooperation for fire safety.

Respectfully submitted,

David W. Brown, Chief
FIRE DEPARTMENT

REPORT OF THE DIRECTOR OF PUBLIC WORKS

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1985.

This year saw many personnel changes within the Department. These changes affected almost half the entire staff. Joseph Bradley and Russell Jones both retired, each with many years of service to the Town. Thomas Baker, Barry Close, Carl Hilstrom and Jacqueline Wilkens resigned from Town service. All these former employees should be commended for their work. New hires were Robert Barrett, Michael Berry, Joseph Pucillo, Shirley Tufts and Edward Victoria.

The Engineering Division was below authorized strength all year. The Town Surveyor's position has been vacant since November 1984. The Engineering Assistant's position has been vacant since February 1985. Advertisements placed in newspapers four times have been less than completely successful. The Engineering Assistant's position was filled in early January 1986.

Personnel changes, shifts and shortages, and the damage done by Hurricane Gloria on September 27, reduced the productivity of the Department.

Newly acquired equipment have been very useful in improving the Department's capabilities. Portable radios enable better communications. The landfill compactor has been a valuable tool in maximizing the landfill capacity. The tractor and flail mower have been used to mow vegetation that has grown along the sides of roads. The new boom truck for the Tree Division replaces a similar vehicle that is over 15 years old. The trailer for hauling pieces of heavy equipment has been used frequently and is expected to extend the lifetime of this equipment by not having to operate them for long distances of the roads.

The Department received a computer which it has started to incorporate into its daily activities. While it is too early to determine how valuable the computer will be, its effects on improving efficiency have already been felt.

Major studies initiated are the hydrogeological study and the landfill expansion study. It is expected that the hydrogeological study, awarded to IEP, Inc., will result in a major revision to and improvements of the groundwater protection district by-law. It is expected that the landfill expansion study, awarded to SEA Consultants, Inc., will result in the Department of Environmental Quality Engineering's approval of the vertical expansion of the sanitary landfill.

The Department continues to provide services to other Town agencies on a frequent basis. Coupled with the pressures of continued growth, these demands have ensured that the Department remains active and alert.

Respectfully submitted,

Howard Shaevitz, P.E.
DIRECTOR OF PUBLIC WORKS

REPORT OF THE HIGHWAY SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1985.

The following streets were resurfaced with Type I mix: Prospect Street from Purchase Street to the rail bed, Sheridan Street from Columbus Avenue to Standley Road.

The Town Office parking lot, the front of the Fire and Police Station, along with the rear of the Fire Station in North Easton, were resurfaced.

Corrective drainage was done at Central and Depot Streets.

Main Street was widened at the bridge to allow better traffic flow.

Our new landfill compactor was delivered in July and is proving to be very effective in extending the life of the landfill.

Our low bed trailer is proving to be very useful to all departments.

Our Maintenance Division is going a good job in keeping our fleet in good repair.

I would like to thank the Director of Public Works, all Division Heads, and the office staff for their cooperation. I would also like to thank the men of the Highway, Landfill and Maintenance Divisions for a job well done, especially during Hurricane Gloria.

Respectfully submitted,

Edward C. Jacobson

REPORT OF THE WATER DIVISION

To the Honorable Board of Selectmen:

I respectfully submit the following report and pumping record for the year 1985.

Month	Gallons Pumped	Month	Gallons Pumped
January	39,169,000	July	57,285,000
February	37,040,000	August	53,487,000
March	40,777,000	September	46,200,000
April	43,454,000	October	44,693,000
May	50,402,000	November	42,580,300
June	49,521,000	December	42,770,000

Total gallons pumped – 1985 –– 547,878,300

The greatest amount pumped in one day was 2,490,000 gallons on July 21.

The Water Division responsed to 2,976 service and emergency calls.

Connected 185 new services for a total of 5,030 active services.
Renewed 1 water service.
Dug up and repaired 15 service leaks.
Thawed out 11 services.
Dug up and replaced 10 old fire hydrants with new traffic breakaway models.
5 hydrants were hit by automobiles. (Vehicle owners or insurance companies were billed for repairs.)
357 meters were replaced.
Repaired 9 – 8" broken water mains.

In 1985 new subdivisions added to our system:
1,650 feet of 4" water mains.
962 feet of 6" water mains.
14,447 feet of 8" water mains.
25 new fire hydrants.

We now have a total of 115.8 miles of water mains and 928 hydrants in our system.

The Water Division supervised the installation of 437 feet of 12" ductile iron water main and 2,030 feet of 16" ductile iron water main. This completed the project along Route No. 138. The Division also inspected the construction of the new 2 million gallon storage tank in Unionville which is completed. The tank will be painted in the spring and put into service by early summer.

I would like to express my appreciation to all department heads and employees for their assistance during the year, especially the dedication of the Water Division employees; Dorothy Stone, Shirley Tufts, John Marsh, Richard Buckley, Raymond Keyes, John Fresh, Jr., William Smith and Patrick Corbett.

Respectfully submitted,

Wayne P. Southworth
SUPERINTENDENT OF WATER DIVISION

REPORT OF THE TREE WARDEN and BUILDING AND GROUNDS SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for 1985.

Approximately seventy (70) shade and flowering trees were planted in various areas of the town.

Trimming of dead, dangerous or obstructing limbs and the cutting of brush was done along roadsides. Until the time of the arrival of Hurricane Gloria, fifty-nine (59) dead or dying shade trees were removed.

Hurricane Gloria did extensive damage to trees in several areas of the Town. Although the major portion of the cleanup has been completed, brush continues to be collected and damaged trees continue to be removed.

Gypsy Moth activity seemed to have stabilized somewhat. Spraying was done in areas of high oak tree density for both gypsy moth and canker worms. The Department of Environmental Management checked several areas and found gypsy moth egg clusters. Twig samples showed a buildup of oak leaf tier and oak leaf skeletonizer. Shade trees were sprayed for aphids, as needed.

Poison ivy eradication was done along roadsides and on private property at the request of the property owners. Weeds and grasses along gutters and sidewalks were also sprayed.

The new tractor with flail mower attachment arrived in July and was put into service shortly after. Several miles of roadside brush were cut. This equipment has and will continue to be a valuable asset to the Town in removing the unwanted growth of vegetation along roadsides.

The gutters on the east wing of the Town Offices were replaced with copper. The remaining gutter bottoms were lined with a membrane. Walls were removed between two small storage rooms on the second floor to make an enlarged room which now functions as the computer center.

The stairs on the fire escape at Fire Station No. 2 were replaced. The roof of the firing range at the Mechanic Street lock-up was replaced.

Electrical, plumbing, heating and other maintenance work was done, as needed or required.

Cemeteries and grounds were cleaned of winter debris and mowed on a regular or as-needed basis.

The well and pump at the Town Pool were cleaned and purged to bring them to their original design capacity. Repairs and refurbishing around the pool area were done. The pool was opened on schedule.

I wish to thank the Town Administrator and the Director of Public Works for their assistance. I also wish to thank the division heads, their personnel and the office staff for their cooperation. I extend my appreciation to the members of my two divisions for their help throughout the year and especially for their efforts in the cleanup during and after the arrival of Hurricane Gloria.

Respectfully submitted,

REPORT OF THE BOARD OF HEALTH

To the Citizens of Easton:

In compliance with Section 28, Chapter 111, M.G.L., it is our pleasure to herewith submit to you a summary of work done under the jurisdiction of the Board of Health for the year 1985.

At the annual election in April 1985, Charles P. Barboza was elected. At the reorganizational meeting Donald F. Craig was re-elected Chairman. Appointments made by the Board include: Plumbing Inspector, George E. Sawyer; Assistant Plumbing Inspector, Robert A. Govey; Agent Mary P. Connolly; Milk Inspector, John D. Melin, who was nominated by the Board and appointed by the Department of Agriculture as Animal Inspector. The Board appreciates the services rendered by the Engineering Division of the D.P.W. The contract with Community Health Agency, Inc., was renewed July 1, 1985.

Plumbing Inspector Sawyer reported that 343 plumbing permits were issued in 1985.

Milk Inspector Melin collected milk samples for analysis throughout the year. All establishments were licensed to sell milk and cream.

Animal Inspector Melin inspected all dairy cattle, cows, horses, ponies, sheep and swine. All animal bites were followed up and the animal quarantined for 10 days.

A relatively healthy year is reported. All reports were made and all diseases followed up as required.

Many inspections were made under the applicable public health and DEQE codes which are enforced by the local Board. Follow-ups were made to ensure that the required corrective action be taken. The Board appreciates citizen input in reporting anything that they feel might be a code violation.

Several clinics of varying natures were offered by the Board, as well as several promotion programs. Several codes were revised by the Commonwealth and the Board has attended seminars, meetings, etc., regarding these and done educational programs to familiarize the proper people.

The Board has promulgated several new regulations and is working on revising others.

The Board works closely with local, regional and state agencies in a continued effort to safeguard the Town and the Townspeople in matters of public health. The Board appreciates the cooperation of other town agencies.

Respectfully submitted,

Donald F. Craig, Chairman

REPORT OF THE BUILDING DEPARTMENT

To the Board of Selectmen:

This is to inform the Board of Selectmen of the progress this Department has made in the past year.

We are giving full cooperation to all departments, attend Planning Board and Appeal Board meetings when asked or feel it will be helpful. Although we do not always agree with the Planning Board and some of their decisions, I feel we are making progress to better relations.

We have set up a card system for all Building Permits by streets that go back to 1974. We are also in the process of setting up a card system for Board of Appeals decisions.

Since August, when George Bagge was hired as Deputy Inspector for 16 hours a week, we have made great progress on the sign violations. We have required over 25 owners who did not have permits to obtain them. Many illegal signs were removed and I feel we have a better understanding with sign companies that do business in town. There is still more to be done in this area.

Violations of Town By-Laws have resulted in several complaints being filed in the Taunton District Court. This is a slow and often frustrating process but necessary in order to curb violations and to let violators know that we will not tolerate anyone doing as they please.

The decision to add a full time Fire Inspector was a good and necessary addition to the Fire Department. We are working closely and in harmony with him. We combine our school and public assembly inspections with the Fire Inspector. This results in a thorough and complete inspection of all necessary buildings.

The Town is growing fast and there does not seem to be a let-up in construction. There is no doubt this Department could use more help but we understand the problems of the Town Budget. Zoning problems take time and we are working to the best of our ability to make our decisions fairly and consistent.

We welcome any input that the Board of Selectmen may have that would increase the efficiency of this Department.

Yours truly,

John A. Pires

REPORT OF THE
EASTON PLANNING & ZONING BOARD

To the Citizens of Easton:

The Planning & Zoning board is respectfully submitting our annual report. During the past several years, and continuing through 1985, the Planning & Zoning Board has accepted most seriously our obligation to administer the zoning laws and promote sound community planning efforts in a professional manner. This Board has taken the continuous and steadfast position to limit the effects on our natural resources to the barest minimum.

As the population of Easton increases, less buildable land is available. Under these circumstances, more pressure is felt by this Board to allow the utilization of marginal lands in the interest of development, Therefore, more engineering effort will be required, both in planning and monitoring development, as we are called on to consider the use of less suitable land.

In order to achieve success, it is necessary for all residents to be supportive of our efforts to protect the semi-rural characteristics of Easton, including concern for the groundwater protection, pedestrian and vehicular traffic flow, public health, safety, pollution, fire protection and conservation of natural terrain features, coupled with historical and aesthetic considerations.

This all volunteer Board has given its efforts tirelessly to perform tasks on Saturdays, Sundays, and long Wednesday evenings throughout the year. We recognize the next few years to be the most critical in our planning effort to ensure future generations are able to enjoy the natural and social environment available to us. Enforcement is the key to success.

The year 1985 has been the heaviest year thus far in the work load of the Planning & Zoning Board. This has included:

1. More than 400 site and subdivision inspections made necessary by the lack of engineering services.
2. Preparation of site plan guidelines (30 pages).
3. Design review of thirty-three site plans.
4. Coordination with adjacent town planning boards.
5. Planning & Zoning Board members are also active participants in many other town committees.
6. Workshop meetings with other town boards and officials.
7. Review of hazardous intersections.
8. Meetings with Massachusetts Federation of Planning Boards and seminars on planning related matters.

Four preliminary subdivision plans were submitted for review. Four definitive subdivision plans were submitted and three subdivisions were approved. Thirty-three site plans were approved. Forty-six plans not requiring approval under the subdivision control law were approved.

The continued support and cooperation from all concerned citizens who have worked with us in the pursuit of good community planning is greatly appreciated.

Respectfully submitted,

Edmund McAdam, P.E. Chairman

REPORT OF THE BOARD OF APPEALS

To the Selectmen of Easton:

We, the members of the Board of Appeals, respectfully submit the following annual report of the Year 1985.

Fifty-eight (58) petitions, 44 variances and 11 special permits were received by the Board during the year which, in conformity with the law, were duly advertised and copies of the notice mailed to all town boards and all parties of interest as defined by Section 11, Chapter 40A, M.G.L.

The members of the Board, after hearing all the facts and evidence as presented at the public hearing, found as follows:

	Variance	**Special Permits**
Petitions granted	10	11
Petitions denied	11	1
Petitions given leave to withdraw	14	2
	44	14

Petitioners not fully prepared for a proper hearing are given permission to withdraw their application without prejudice.

During the past year and for years prior, the Zoning Board of Appeals has received numerous complaints at its meetings of zoning violations and requests for enforcement of the zoning by-law. The members indicated that the appeal unit is a decision making body and not an investigative or enforcing agency. The Board suggests that any person who becomes aware of what may be a zoning by-law violation should request in writing that the enforcing officer (building inspector) investigate the alleged violation and request that the by-law be enforced. The person requesting the enforcement should specify the location, the area, the nature of the violation and the activities that are believed to be in violation of the zoning by-law.

The enforcing officer must reply in writing within 14 days to the person requesting enforcement of the action and list the steps taken or the reasons for his refusal to act.

The Board wishes to take the opportunity to thank all town officials and personnel for the assistance and services rendered the Board during the year.

REPORT OF THE CONSERVATION COMMISSION

To the Citizens of the Town of Easton:

In the year of 1985 the Conservation Commission received two gifts of land. The first gift was a 10 +/— acre gift of land off Bay Road from Mr. Richard Donahue and Mr. Joseph Urciuoli. Said parcel nicely abuts the 32 acres owned by the Commission and known as "Fox Mountain Lot." The second gift was a 7.338 acre piece of property off Bay Road near Daniel Drive given to us by Mr. Douglas A. King.

The Wetlands Protection By-Law under which the Commission operates saw us with eight Determinations for the Applicability of the Wetlands Protection Act and a total of twenty-five Order of Conditions. Said wetland jurisdiction is an increase over the past years and indicates a definite impact of the Town's growth on the remaining marginal land.

The Wheaton Farm has also been improved with an Eagle Scout Project completed in the form of trail improvement. Another project has been started and the finished wood duck boxes will be installed next year.

The Commission has recently become involved with the Massachusetts Bay Greenbelt Circuit Program which would establish a continuous "greenbelt" through 50 communities from Ipswich to Duxbury, including Easton between Routes 128 and 495. Said Program would also necessitate the updating of the five year Conservation Plan.

The Commission would like to thank all of the Town boards and officials who have assisted us over the past year and our fellow citizens for their continuous support.

REPORT OF THE EASTON HISTORICAL COMMISSION

The Commission has continued to identify, register and promote an awareness of the historic assets within the town.

Once again the Commissioners have been encouraged by the financial support of the private and business sectors in helping to continue this program.

1985 was a year of many events celebrating the Bi-Centennial of Bristol County. Commissioners participated in and attended many meetings to help make these events a big success. A huge rally was held at Taunton which was attended by contingents from every city and town in the county. All of those who attended were really entertained by Mr. Bob Hope. Certainly a high point was the dedication of a monument at Belmont Street at the Easton - Brockton line, in joint cooperation with the Brockton Historical Commission. They also were celebrating Plymouth County's 200th anniversary.

A monument describing the historic nature of the "Five Corners" area was installed at Shaw's Plaza.

The Commission acted as host to the Massachusetts Historical Commission for their annual "Historic Preservation Awards" held at Oakes Ames Memorial Hall. One of the awards was for the restoration of the Handle Shop building at 18 Oliver Street.

The Commissioners do want to emphasize the concern for long-range plans of controlled growth in the town. The historic nature of the three districts; the Bay Road, the North Easton Village and the Furnace Village, must be protected.

The Commission appreciates the cooperation of townspeople and various governmental offices for their support during the past year.

REPORT OF THE RECREATION COMMISSION

The Easton Recreation Department had a summer program that exceeded all expectations enrollment-wise. At all three sites records were established.

The swimming area had seven hundred and eighty-four participants. Frothingham Park, once again, because of its central location, availability of multi-talented instructors and scenic landscaping, contributed to a total enrollment of 131 aspiring youth. Instructional tennis, boys and girls, was highly received with six weeks of full enrollment.

The traditional on-going Fall, Winter and Spring programs of Aerobics, Open Gymnasium (basketball and volleyball), Special Needs activities, Blue Hills Instructional Ski program, women's volleyball, adult basketball, and weightlifting, continued with success.

Adult pleasure trips were added to the program and revealed a need for additional excursions.

The Commission encourages citizens to recommend additional programs that would best serve the community.

The Town Administrator and Commission goals are to provide, prepare and maintain safe, well groomed public active and passive areas of recreation. Also, both would like to create and implement more versatile and affordable quality services to the residents of the community during peak leisure hours.

Sincerely,

Valentine P. Muscato,
Recreation Director

REPORT OF THE COUNCIL ON AGING

During 1985 the Council on Aging provided transportation, nutrition, recreation and referral services to the elderly residents of Easton.

The transportation program, consisting primarily of shuttle van service, was supplemented by our volunteers who drove the elderly to their medical appointments, the Dial-A-Bat service for handicapped elders and with referrals for transportation to Medicaid and Old Colony Elderly Services. One hundred sixty-five individuals received 17,026 one-way trips to grocery stores, shopping malls, medical appointments, hairdresser appointments and to the Senior Center.

The transportation program was funded by the Council on Aging budget with additional support from participant donations and mileage reimbursement for our volunteer drivers supplied by the Area Agency on Aging/Old Colony Planning Council.

Sixty to seventy elders, each weekday, took part in the nutrition program at the Senior Center or received meals-on-wheels. A total of 16,157 meals were served during the year. Old Colony Elderly Services operated the lunch program at the Center and provided the majority of the meals-on-wheels, though special-diet meals were available from Easton-Lincoln Nursing Home through an agreement with the Council on Aging.

Recreational programs at the Senior Center included aerobics, art, ceramics, knitting, line dancing, needlepoint, quilling and quilting. The bowling league grew to include sixty seniors who met most Monday afternoons at Maple Alleys in Brockton. Council on Aging day trips and overnight tours remained popular and attracted more than two hundred seniors on a total of twenty-two trips.

The monthly newsletter, which was mailed or delivered to every elderly household in Easton, was made possible through a grant from the Executive Office of Elder Affairs. It contained information on Council on Aging programs and news items of interest to seniors. Council on Aging volunteers and staff members took fuel assistance applications, issued senior citizen identification cards, completed Bay State Gas discount cards and distributed government surplus food to low-income residents. Staff members helped seniors complete health insurance forms and Medicaid applications. Referrals were made to area agencies to obtain homemakers, homehealth aides and legal assistance for elderly residents. If elders could not come to the office or to the Senior Center for service, the director made home visits.

The Council on Aging would like to thank the many volunteers who make our programs possible and the Easton Housing Authority for the use of the Senior Center, also the Board of Selectmen, the Finance Committee and the residents of Easton for their continued support of our elderly services and programs.

REPORT OF THE VETERANS' SERVICES DEPARTMENT

During 1985 a total of seventy-nine veterans and their families were assisted through this Department.

Nine veterans received financial assistance with Ordinary Benefits and/or Medical Benefits. These benefits are paid from local appropriations with the State of Massachusetts reimbursing the Town for seventy-five percent of the veterans' benefits issued.

Seventy veterans received assistance in the following areas: claims for Veterans' Administration pensions, disability compensation, educational benefits, burial expense reimbursement and Eligibility Verification Reports; fuel assistance applications, government surplus food, SSI applications, health insurance claims, nursing home placement, legal assistance referral, property tax exemptions, handicapped accessability laws and handicapped license plates. Vietnam Bonus applications were also completed. As Veterans' Agent, I provided information, direct service or referrals to the appropriate agencies that could help solve the veterans' problems.

The Veterans' Services Department was open Monday through Friday from 8:30 - 11:30 a.m. and from 12:30 - 4:30 p.m. I made home visits to those veterans whose poor health prevented them from coming to the Veterans' Services Department for assistance.

I wish to thank the members of the Board of Selectmen for their continued cooperation and support of this Veterans' Services Department.

REPORT OF THE AMES FREE LIBRARY OF EASTON, INC.

The report of the Ames Free Library of Easton, Inc., for the year ending December 31, 1985 is hereby submitted.

With the addition of 1,216 new books, the total number of volumes in the library rose to 48,523 in 1985. Of the recent accessions, 813 were in the adult section and 403 in the children's room.

A combined total of 65,813 books circulated during 1985, 33,320 of them adult and 32,493 juvenile. This figure represents a gain of 271 over last year's circulation. The 1,431 borrowers' cards registered during the year brought the sum total of active library cards to 5,792, which is larger by 393 then the number recorded a year ago.

Young people's library activities included story hours for pre-school children in the spring and the fall. During July and August a summer reading club, based on a theme of knights and castles, was held for grade-school children and pre-schoolers, the latter having stories read aloud to them by their mothers. There were 140 club members, with 74 of them reading and reporting on 10 books or more.

In February of 1985 the Easton Arts Council presented the library with an award of $1,000 for the purchase of art books from funds distributed by the State Arts Lottery Council. The Board of Library Directors voted to purchase **The Encyclopedia of World Art,** a definitive work in sixteen volumes published by McGraw-Hill. This set, which covers all periods, countries and forms of art, is shelved in the reference room where it is available for students and art lovers.

As in other years the library building, constructed by H. H. Richardson, continued to attract visitors coming from all parts of this country and abroad to see this fine example of the famous architect's work.

REPORT OF THE FIRE STATION BUILDING COMMITTEE

Since our last report to you we have resolved many minor annoying problems leading to the signing of a contract with the contractor, Mechanical Systems, Inc., in January.

We actually begin clearing the site location in late April. With the pouring of cement, erection of the steel and internal work on plumbing and electricity, the physical outline took shape under the watchful eyes of Raymond Carlson, our Resident Engineer, and daily visits of Committee members Bolster, Phillips, Austin, Raymond and Huddy.

We have now reached the 60% completion point with final completion expected in April 1986.

REPORT OF THE EASTON LIBRARY STUDY COMMITTEE

This past year the Committee has continued to research ways and means of expanding and improving library services in Easton. Much of this work includes contacting and investigating other towns with a population and library history similar to Easton's. The Committee is also constantly in contact with the Massachusetts Board of Library Directors for advice and guidance. We are always made aware of the fact that because of certain circumstances, Easton is unique.

Specifically, while the Ames Free Library has been serving the Town, the Committee's research indicates the need for a more accessible library with expanded facilities and services. Essentially, the Town will have to establish a facility from its own resources. The Committee has established a definite need and desire for additional library services in Easton. The survey conducted in October-November 1984 revealed that 83% favor improved library services and 82% are in favor of town appropriation to achieve this objective. The survey was taken by 1,429 residents.

Emphasis has been on rehabilitating existing buildings in Easton. Several sites are now being considered. To properly evaluate the sites, establish a building program statement, determine the size and content of the collection based on population trends and to establish a basic profile and finding resources, a professional library consultant is imperative. Other options to the Town also have to be evaluated for comparative purposes.

The Committee needs the support of many residents for gathering basic information awareness activities. Easton should have a high quality, modern information resource center.

REPORT OF CEMETERY COMMISSION

This year we have endeavored to clear and clean up all cemeteries in Easton. The cemeteries have been mowed and stones straightened where possible. We have been able to have signs made by the Department of Public Works and placed in each cemetery. Research accomplished the name of cemeteries, date founded, and location for townspeople to observe.

Many thanks are in order to Dan Amorin and his crew for upkeep of the cemeteries. Also, many thanks to Earl Gardiner who made the metal signs and secured small Town of Easton seals to place on each sign, plus putting signs in place.

Attached is the list of names of cemeteries, date founded, and location.

Sincerely,

Clyde A. Craig, Chairman
William Lahey
John Melin

REPORT OF THE
WATER RESOURCES ADVISORY COMMISSION

To the Honorable Board of Selectmen:

The Easton Water Resources Advisory Commission respectfully submits this annual report.

Important steps were taken in 1985 to protect Easton's groundwater supplies. The aquifer study, approved at last year's Town Meeting, will be completed in the spring of 1986. It is being conducted by IEP, Inc., a consulting firm from Northboro, MA, and it will include recommendations for land use controls to protect the wells from contamination. The Commission recommends speedy adoption of appropriate measures to protect the Town's water supply.

Easton will receive $100,000 for purchase of land around the wells on Red Mill Road from the Department of Environmental Quality Engineer's Aquifer Land Acquisition program. Easton was one of only 27 towns to receive these funds.

The second annual Household Hazardous Waste Collection Day was held on November 16, 1985 in conjunction with the City of Brockton. Fifty (50) Easton residents brought hazardous wastes to the site at the Brockton High School. Five Easton Water Division employees and two Commission members were on hand to assist.

Education of Easton residents about water supply issues continues with newsletter inserts in water bills and appearances by Water Division Superintendent Wayne P. Southworth at school programs and on Cable TV. An open house was sponsored by the Water Division on May 11, 1985.

The Water Resources Advisory Commission recommends continued action to protect the Town's water supply. The Town's road salting program should be reviewed to see if the salt use can be reduced, town-owned underground tanks should be tested, boundaries around our municipal wells should be surveyed and marked, and additional land purchased to prevent contamination of the wells.

The Commission would like to congratulate the Water Division for a job well done and the Town for its foresight in taking action to protect its water supply.

Respectfully submitted,

Charles Callen
Clifford Grant
Lyn White

REPORT OF THE PUBLIC FACILITIES STUDY COMMITTEE

To the Honorable Board of Selectmen:

You have charged us to study the current facility needs of all Municipal Departments, to determine future facility needs through the year 1995, and to prepare an outline documenting the type and extent of expansion, restoration or modernization necessary to meet the facility needs of all Municipal Departments, including the preparation of cost estimates.

In our opinion there are two facilities which are of the highest priority and which should be addressed within two years:

1. A new, modern Police Station should be built and it should be on a major Town road so that it is easily accessible and strategically located. We believe the cost would be approximately $800,000.

2. A substantial addition to the Town Hall is needed to correct over crowding, satisfy needs for privacy, storage, meeting space and adequate working conditions and to allow the consolidation of certain Town departments within a central location. We estimate the approximate cost would be $1,200,000.

We believe there are six facilities needs which are of the next highest priority, representing needs which should be met within five years:

1. A permanent location for the Civil Defense Unit and its equipment. Our cost estimate is approximately $2,000, assuming the unit moves to a property currently owned by the Town.

2. Improvements to the Department of Public Works, including storage facilities for equipment, vehicles and parts and improved locker and kitchen facilities. The major need which would solve some of these problems is for a new garage-type building. Our cost estimate is $100,000.

3. Consolidation of the Fire Department into two properly located and staffed stations. This would require the construction of one new station which we estimate would cost approximately $1.5 million.

4. Creation of a single fueling facility which we estimate would cost approximately $25,000.

5. Establishment of a new library facility.

6. Significant improvement in the Town's ability to provide recreational swimming. Our recommendation is that the Recreation Committee initiate a formal study.

Finally, we feel that the resolution of the Town's need for an alternative to the land-fill operation may have to be found by 1995. The matter is being studied by a consulting firm which has been asked to prepare a design for future expansion. Approval of a new design will be sought from the State Department of Environmental Quality Engineering. The ultimate resolution will depend upon their decision.

We believe that the facilities needs we have identified will all need attention in the next decade. Those which we consider to be of the highest priority should receive immediate attention.

We feel there are some Town-owned facilities which should be sold to private intereests with the proceeds being used to partially pay for the identified facilities needs. Some of these properties would become available for sale if our suggestions were to be adopted.

We received the enthusiastic cooperation of all Town officials whom we interviewed during this assignment. We hereby express our appreciation to them.

Respectfully yours,

REPORT OF THE OLD COLONY PLANNING COUNCIL

As your representatives to the Old Colony Planning Council, we are pleased to present this report of the Council's activities for 1985.

During the year the program of the Council was concentrated in three major areas: Economic and Community Development; Transportation and Transit Planning; and Area Agency on Aging Planning, including the coordination and implementation of elder service programs.

Economic Development activites of the Council included the coordination of regional development activities through the Overall Economic Development Program (OEDP) Committee. The Council conducted an employer/employee transportation needs survey of the Avon and Easton Industrial parks. Other activities included assistance with the Regional Job Fair and providing technical assistance to local communities in their efforts to attract industry. Staff was also involved with the preparation, receipt and administration of a State supported Energy Grant which provides energy assistance to local industrial firms in the OCPC area. To date ten firms have taken advantage of the grants and have received the engineering analysis for their companies.

The transportation and transit planning activities of the Council during the year required the preparation of a number of documents and studies necessary for the area communities to continue to remain eligible for transportation improvement program funds from the federal and state governments. Among these were the Transportation Plan update; Transportation Improvement Program; a Prospectus of the Region; the Route 123 Traffic Study; the Bridgewater Center Traffic Study; and the Plymouth, Kingston, Carver and Plympton Rural Transit Survey. The Council also completed the Easton/Raynham Commuter Rail Feasibility Study. The study explored the feasibility of extending the Stoughton Commuter Rail Service to Easton/Raynham. Other strategies of the Council included restoring commuter rail service to the Old Colony region as part of a cooperative effort.

The Council, acting as the Area Agency on Aging, was responsible for administering Title III Older Americans Act monies allocated to the region. The OCPC funded and coordinated a wide range of community, in-home, and nutritional services for elders. In addition to the direct funding of Council on Aging Programs, other programs are administered regionally for the benefit of elders in the entire service area. These programs include the Volunteer Transportation Program and Nursing Home Ombudsman Program administered by the Area Agency; the Senior Law Project, home health aide and respite care, and several hospice programs; and, an Emergency Assistance Program for elders. Congregate and home delivered meals made available in Easton through Old Colony Elderly Services are funded by Old Colony Planning Council with Title III—C monies.

In 1985 Charles A. Pickering of West Bridgewater was elected as President of OCPC; John J. DeMarco of Avon was elected as Council Secretary; and James A. Kassos of Brockton was elected as Council Treasurer for the year.

The Council gratefully acknowledges the generous support and cooperation of its member communities, the work of local boards and commissions and the many government agencies, public and private institutions and individuals who have assisted the Council.

Respectfully submitted,

Richard H. Chase, Delegate
Edmund J. McAdam, Alternate

ARTICLE 6 – STREET REGULATIONS

Section 1. No person not in the employ of the Town shall dig up or excavate any part of a public street or remove any gravel therefrom unless he has obtained a Street Opening Permit from the Director of Public Works.

Section 2. Whoever by virtue of such license digs up or excavates any part of a public street shall cause a rail or sufficient fence to enclose part so dug up and shall cause a sufficient number of lighted lanterns to be fixed to said fence during the whole of every night while such excavation exists.

Section 3. Said licensee shall properly restore said street.

Section 4. No person shall skate or coast upon any street or public place, except at such times and upon such streets or places as the Selectmen may, by public notice, designate for such purpose.

Section 5. No owner or person having the care of any sheep, goats, swine, oxen, horses, or any other grazing animals, shall permit or suffer the same to go at large, or to graze on any street, way, common square or any other public place within the town.

Section 6. The Highway Superintendent may remove, or cause to be removed, any vehicle interfering with the plowing or removal of snow and ice, from any public street or public place.

Section 7. Such vehicle may be removed to any convenient place, including a public garage, and the owner of said vehicle shall be liable for the cost of such removal and for the storage charges, if any, resulting therefrom.

Section 8. No person shall pipe or otherwise deposit in or upon any public street or public place, any water or other substance which may freeze and thereby create a hazardous condition, without a permit from the Board of Selectmen.

Section 9. No person shall stand, lounge, or park any vehicle on any sidewalk, public way or other place to which the public has a right of access in such manner, as to obstruct a free passage for pedestrians and or motor vehicles.

Section 10. REPORT OF THE AMES TRUST FUNDS

The following statement is supplied the Town Treasurer by the office of the Trustees of the Ames Trust Funds.

Following is a summary of the Ames Trust Funds held for the benefit of the Town of Easton as of December 31, 1985, together with an estimate of the 1986 income. The estimate for the 1986 income is based on the amounts which the various companies are now paying. This estimate does not allow for any deductions which may have to be made before the net income is paid over to the Town of Easton, neither does it take into consideration any reductions in dividends which might be made by the various companies.

REPORT OF THE TOWN ACCOUNTANT

To the Board of Selectmen:

This department has, during the past year, continued to monitor the various accounting functions of the Town.

An ongoing project to implement revisions to the UMASS accounting system and to continue the process of completing the conversion to our computer has been the main objectives of this department.

This report also includes the Balance Sheet of the Town as of June 30, 1985.

Respectfully submitted,

Ernest R. Camara

BUDGET NOTES

This budget is submitted based on fiscal projections available at the time of printing. If additional funds become available alternate recommendations may be presented by the Board of Selectmen and Finance Committee at Town Meeting.

1. The budget does not include salary increases for FY 87 due to the fact that at the time of printing negotiations were still ongoing with all employee groups.

2. Budget totals reflect only those budgets that have received a recommendation. Any blank spaces reflect budgets that had not been voted upon at the time of printing.

3. School Department request does not include salary increases for FY 87 as explained above.

4. Administrator's budget includes a new position of Collector/Treasurer which has also been recommended by the Board of Selectmen and Finance Committee.

5. Difference in Police Department request and recommended amounts is the deletion of five (5) new officer positions.

6. The entire Water Division Budget, a portion of debt service, a portion of unclassified and Department of Public Works are paid for from Water Revenue and not from the tax levy.

BOARD OF SELECTMEN

NOTES

OFFICIAL PROCEDURES TO BE USED AT TOWN MEETING

Approved — Town Meeting — May 1978

1. Main Motions:

Debatable

When a motion has been made, seconded and stated by the Chair, the assembly is not at liberty to consider any other main motion until this motion has been disposed of.

2. Motions to Amend: **Majority Vote Required**

Debatable

This motion is to change, add, or omit words in the original main motions.

3. Motion to Amend the Amendment **Majority Vote Required**

Debatable

This is a motion to change, add, or omit words in the first amendment.

Method of Vote: The first vote is on changing words of second amendment. If the first vote adopts the change, the second vote is on the first amendment as changed or amended. The third vote is on adopting the main motion as changed or amended.

4. Motion to Commit or Refer: **Majority Vote Required**

Debatable, Amendable

When a motion becomes involved through amendments or when it is wise to investigate a question more carefully, it may be moved to commit or refer the motion to a committee for further consideration.

5. Motion to Close Debate Not Debatable **2/3 Vote Required**

When debate does not seem to be shedding additional light on a question, you may move to end it by calling the question: "Mr. Moderator, I call the question." You must be recognized by the Chair before making this motion. As soon as this Motion is made, debate ceases and a vote on closing debate is taken. If the motion is carried, a vote is immediately taken on the question under consideration.

6. Motion to Reconsider: **Majority Vote Required**

Debatable

This motion must be made the same day as the original motion was carried or defeated, "A vote can be reconsidered only once."

7. Motion to Adjourn: **Majority**

Debatable

This motion is always in order except (a) when a speaker has the floor, (b) when a vote is being taken, (c) after it has just been voted down (d) when the

assembly is in the middle of some business which cannot be abruptly stopped. A definite time and place must be set.

MISCELLANEOUS MOTIONS

These motions (or questions) are not necessarily related to the Main Motion and do not fall within the order of precedence. They may be made as appropriate or necessary.

1. Question of Privilege:

A motion unrelated to the business taking place, e.g. "Question of privilege, please! It is too noisy. I request that the Chair ask that all talking be stopped."

2. Point of Information:

Motion used to ask a question or obtain clarification of facts pertaining to the motion at hand. "Point of information, please! What would be the cost to repair this piece of machinery rather than replace it?" There is no vote or debate. The Chair provides the information sought.

3. Point of Order:

This motion is always in order but can be used only to present an objection to some method of parliamentary procedure. "Mr. Moderator, I rise to a point of order!" Then the objection is stated. There is no vote or debate and the Chair immediately rules on the point of order.

4. Point of No Quorum:

This motion requires no second and is not debatable. No other motion may be applied to it. It may not be used to interrupt a speaker. When the point is properly raised, the Moderator must then ascertain whether or not a quorum exists.
